DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings were received on 04 October 2007. These drawings are acceptable.

Claim Objections

3. The prior objections to the claims have been overcome by the response filed 04 October 2007.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1 through 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Price (U.S. Patent No. 4,343,571).

Price '571, as best seen in Figure 4, shows a reinforced earth wall in which front ends of reinforcing strips are inserted into grooves.

Art Unit: 3671

Price '571 fails to teach the strips having a folding groove in the lengthwise direction and being folded lengthwise. However, it would have been obvious to one having ordinary skill in the art at the time of invention to modify the strips of the apparatus disclosed by Price '571 such that they would include a folding groove, since the Examiner takes Official Notice of the use of folding grooves in material for facilitating folding. Furthermore, it would have been obvious to one having ordinary skill in the art at the time of invention to modify the strips of the apparatus disclosed by Price '571 such that they would be folded in the lengthwise direction, since the Examiner takes Official Notice of prior knowledge of folding material in half to enable its attachment to members having a length less than the width of the unfolded material.; e.g., trousers are folded in half for attachment to hangers.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
